14 November 1962

MEMORANDUM FOR: Deputy Director (Research)

SUBJECT : Continuation of Research & Development  
Liaison with ASA

1. Since late in 1958, liaison concerning SIGINT equipment has been conducted with elements of the Army Security Agency Board. This liaison was initiated by the Director of Communications, his objective being the coordination of equipment research and procurement of items of common interest in the SIGINT and ELINT fields.

2. Just prior to organization of the DD/R the Office of Communications planned a full exchange with ASA on projects and budgets concerned with SIGINT equipment research and procurement. However, a decision on this was delayed pending resolution of the new organization for support of ELINT activity.

3. Considering that the organizational question has been resolved, it now appears appropriate to reaffirm the pattern and scope of our liaison on SIGINT equipment research and procurement with ASA. Accordingly, it is recommended that approval be given to the following:

a. That liaison on SIGINT equipment research and procurement with the Army Security Agency Board be continued by the DD/R, Office of ELINT and,

b. That arrangements be made by the DD/R/OEL for exchange briefings early in December between your office and the Office of the President of the U. S. Army Security Board.

**SUBJECT: Continuation of Research & Development Liaison with ASA**

4. With your concurrence and upon completion of the above briefings it is believed that firm understanding can be reached concerning continuation of this liaison.
